

*The Wye Dip*

The Wye is a classic gate design with real presence, well suited to period and more modern properties. Selected rail heads (pictured) are well matched to the gate but can be altered to your choice.

Available in two versions:

**Heavy:** product code: TPS WDA  
Gate frame from 40mm square box section and 40x10mm flat bar with 16mm uprights @ 100mm centres and 12mm dog bars from the base to the central cross members. These gates are well suited to high end properties and wider entrances.

**Light:** product code TPS WDB  
Gate frame from 30mm square box section and 30x8mm flat bar with 12mm uprights @ 100mm centres and 12mm dog bars from the base to the central cross members. These gates are well suited smaller entrances.

## The Wye *Dip*
